Comments: Mr Johnson is Gas Safe registered under the number 216256. He has been in business since 2005 and his limited company was established in 2007. Work undertaken by Mr Johnson includes the installation, servicing, maintenance and repair of all gas (including LPG) appliances (boilers, fires, etc). He also installs bathrooms, wet rooms and disabled adaptations (electrical work and tiling is provided by sub-contractors); underfloor heating; and energy renewable systems (solar). Mr Johnson undertakes domestic and commercial work (including landlord certificates) and generally works within a 20 mile radius of Preston. No job is too small and Mr Johnson will consider anything from a dripping tap to a full house renovation.

GP Johnson installed a new combi boiler for us. They arrived on time and completed the work in a single day. They charged a fair price and even completed a few extra tasks free of charge. We are very pleased

2016-05-01 21:16:22

with the service provided.

Thank you to Graham, he was reliable, he was knowledgeable, appeared honest and the cost of the work was very reasonable. We had a previous plumber to replace a washer in our bathroom taps, he couldn't do this and left us with unsecured taps saying we needed new ones - however Graham managed this job and saved us the expense of replacing the taps. I would have no hesitation in calling him again for any jobs big or small or recommending him to family and friends.

Very reliable and high quality service. Have my boiler serviced annually and previously supplied and fitted a new boiler for me. Quickly fixed all of the small plumbing jobs that I had been waiting to have sorted out.

2015-11-23 12:06:06

He was very friendly, trustworthy and did an excellent job. I would have him back and recommend him to others.
