This company was chosen for electrical refurbishment at my mother's home based on the purported 35yrs experience, family business, most reliable electrician in Staffordshire..as per his ads. He did actually turn up originally to quote but cancelled a few days before although booked well in advance. He was given the benefit of the doubt and re-booked. I advised that other trades were booked in to follow him so that my daughter could move into a bedroom for Christmas. At 5.12pm the night before the job he informed me by text that he requires payment on the day yet said nothing the previous 2 weeks. As I live away during the week, I offered to transfer the money that evening directly into his account. I never heard back from him and he did not return my messages the next morning. What is the point of wasting someone's time when he probably had no intention of doing the job in the first place. My advice..stay well clear of this unreliable contractor and opt for Checkatrade or similar to read other customers feedback.
